Digital Forensics & eDiscovery
1 Substantive Credit

Presented by: John Unice, Esq.
CEO from Bit by Bit, LLC

Computers have, for some time, been a source of hidden evidence for attorneys to leverage. With the rising number of remote office workers, smartphones and even social media accounts have been increasingly used to conduct business, exchange information, and make connections. All three data sources can provide useful information in the investigative and litigation contexts.

Join us for this interactive, live CLE where we'll discuss the types of evidence that lies beneath, and learn the basics about how to defensibly gather helpful information from these sources.
